

Risk Assessment for the full reopening of school for all children following the coronavirus outbreak 2020

Location / Site	
St Pauls C of E Primary School	
Activity / Procedure	
Full reopening of school following the partial school closure for the coronavirus outbreak	
Assessment conducted by	
<p>Cath Palmer- Head Teacher Senior Leadership Team consultation 18/05/2020 Review with Business Manager 09/06/2020 Consultation with Union Representative 10/06/2020 SLT final consultation 11/06/2020 SLT consultation for change 07/07/2020 Business Manager Review 14/07/2020 EYFS lead review 21/08/2020 Chair of Governors review 01/09/2020 Staff consultation 02/09/2020 Head teacher review 04/09/2020 EYFS team review 11/09/20 Teaching staff review 01/10/20 SLT review 21/10/20 Head Teacher review 24/11/20 Business manager review 25/11/20</p>	

Identify people at risk	YES or NO
Employees	Yes

Children	Yes
Visitors	Yes
Contractors	Yes

Gov.uk website published the following on 02/07/2020:

System of controls

This is the set of actions schools must take. They are grouped into ‘prevention’ and ‘response to any infection’ and are outlined in more detail in the sections below.

Prevention:

1) minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school

2) clean hands thoroughly more often than usual

3) ensure good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach

4) introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach

5) minimise contact between individuals and maintain social distancing wherever possible

6) where necessary, wear appropriate personal protective equipment (PPE)

Numbers 1 to 4 must be in place in all schools, all the time.

Number 5 must be properly considered and schools must put in place measures that suit their particular circumstances.

Number 6 applies in specific circumstances.

Response to any infection:

7) engage with the NHS Test and Trace process

8) manage confirmed cases of coronavirus (COVID-19) amongst the school community

9) contain any outbreak by following local health protection team advice

Numbers 7 to 9 must be followed in every case where they are relevant.

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Direct and indirect transmission of the virus in the classroom			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Year group ‘bubbles’ for pupils and classroom staff will be in place to eliminate mixing between bubbles and minimise risk 2. Children will take part in activities in their class group only and not mix with other classes, using their own classroom or outdoor spaces. Year 1 and Reception to follow timetabled outdoor access. 3. Staff will be placed into two bubbles to ensure effective and safe supervision of classes during staff absence: Rec, Year 1, Year 2 and Year 3 Year 4, Year 5, and Year 6 Staff to wear masks if visiting another classroom for a longer period of time eg. lesson observations 4. All children and parents are made aware of the infection control procedures and social distancing guidance for when the school opens – information for parents on website, home-school agreements issued for every child in September 5. Remove excess furniture to increase space for alternative seating arrangements – excess items to be stored in cellar 6. In Key Stage 2 classroom desks are to be positioned so children are sat facing the front of the classroom, where possible, in accordance with government guidance 7. Children to use same desk throughout the day. for intervention groups – tables are cleaned in between use 8. Reception/Year 1 to use a group table which will be cleaned pre- and post-activity by an adult – resources and stationery packs will be assigned to each child during the activity and will be handed to each child for group activities 9. In provision: Arrange continuous provision and furniture to accommodate learning areas ensuring there is enough space for children to move around and to encourage social distancing, and to purposefully interact with the resources and equipment. <ul style="list-style-type: none"> ○ only resources that can be cleaned effectively and stored in plastic baskets will be used ○ use Milton to wipe down equipment ○ writing resources used in provision to be regularly cleaned throughout the day ○ rotate reading area books will be rotated to be cleaned or quarantined for each session ○ plastic pencil cases/yoghurt pots with children’s names on for their own pencils /crayons ○ children to have their own ‘busy book’ with their individual picture on for mark making and writing ○ resources used cleaned pre and post activity ○ outdoor equipment to be cleaned after each outdoor session with different bubbles and AM and PM 10. In Years 2-6 children keep to their desks and use the same equipment (stationery packs) provided by school to reduce the need to move around the classroom 11. In Years 2-6 reduce the number of exercise books used 			

12. Social distancing charter created for and with the children – ‘Step up to September’. Include instructions on how to line up, use of toilet, moving around the classroom. Also focus on social distancing in day to day life outside of school
13. Charter re-visited and modelled many times a day and linked to school behaviour system – lots of praise for adherence and sanctions for non-compliance
14. Children spoken to, away from the class, if cannot adhere to charter and discussions held regarding the need for social distancing, shared area, reflection room and hall to be used for isolation or 1:1 if needed
15. In Years 2-6, lessons are planned for individual work and working in pairs
16. Feedback – using large whiteboard and visualizer and interactive whiteboard, not close interaction
17. Mark out a designated area for the teacher – 2m distancing at front of room marked with hazard tape no taped area in classes
18. Staff to adhere to the 1m+ guidance when working in the classroom
19. Staff and children who display symptoms of COVID-19 are managed in line with local and national guidance and are sent home as soon as possible- an infrared thermometer is available for use by staff if a high temperature is suspected
20. All staff to be familiar with the school response to suspected COVID-19 procedures
21. All SLT staff to be familiar with the procedures for a response to a confirmed case
22. Coats and lunchboxes to be kept in lockers to minimise personal items in the classroom
23. Years 2-6 water bottles, books and stationery packs to be kept in chair bags to reduce the need to move around the classroom to get a drink
24. Reception and Year 1 water bottles to be stored next to sink

Remaining level of risk

Consider level of risk following use of control measures

HIGH

LOW

NEGLIGIBLE

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Direct and indirect transmission of the virus using toilets and poor hygiene whilst toileting			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Toilet time slots allocated to each class to reduce the likelihood of contact with a pupil from another class Reception/Year1 – where possible a member of staff to supervise children’s visits to the toilet 2. Toilet times for each group to be displayed in each classroom and children reminded of their time slot 3. Allocated toilets for different groups of children: Year 4, 5 and 6 groups to use KS2 toilets Year 2 and 3 to use KS1 toilets Year 1 and Reception to use Early Years toilets Allocated sinks for each bubble within each toilet/cloakroom area 4. If a child visits the toilet out of their allocated time slot, a member of staff is to accompany the child through the corridor to ensure there is no cross-over in the toilet area with a pupil from another class 5. External toilet doors to be propped open for Key Stage 1 toilets to encourage children to check if the toilets are available and to reduce the touching of door handles 6. Hand sanitiser to be used when returning to the classroom after toilet use as well as washing hands at the bathroom Reception and Year 1 adults to supervise the use of hand sanitiser on return to the classroom Outdoor handwashing station in place as you come in the entrance 7. Extra signs in toilet areas on how to wash hands effectively 8. Reception and Year 1 to be taught the correct method of washing hands, this will also be modelled continuously 9. Extra soap and sanitiser ordered to ensure adequate supply 10. Frequent cleaning of push panels and door handles to classrooms/corridors/toilet cubicles to be carried out during the school day by the classroom support staff in every class

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Direct and indirect transmission of the virus waiting to enter school or collect from school			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. One-way system implemented using signage and barriers around the school site 2. There should be no waiting and pupils will enter through their entrances within their arrival time slot 3. A 15-minute time slot will be implemented to spread the flow of parents and children arriving at and leaving the school 4. If children need to be accompanied to their entrance, only one parent should come onto the school grounds 5. Encourage parents/carers to allow children to walk home unaccompanied to and from school in Year 5 and 6 6. If a child is in distress, guide the parent to outdoor sheltered area to spend more time reassuring child and not in the walkway of other parents and children. 7. One entrance pathway and 2 exits routes to be used 8. Instructions and updates for parents/carers are shared via the school website, text notifications and Class Dojo messages 9. Staff to insist on social distancing with families dropping off and collecting and discourage them from waiting/stopping in the one-way system 10. Staff to monitor the entrance and exit to the one-way system to ensure compliance 11. Signage for parents and children displayed around the school site to remind them of social distancing guidelines 12. Additional staff members to be on duty to supervise and direct pupils and parents to their entrances/ exits 13. Classroom staff to monitor their class exit at the end of the day to ensure children are dismissed in a timely manner 14. Children are to be ready to leave from the start of the 15min collection time slot to avoid waiting times in the one-way system

HIGH	MEDIUM	LOW	NEGLIGIBLE
<u>Control measures</u>		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Timetables for use of the playground for playtimes and lunchtimes with specific time slots and allocated supervisors 2. Reception/Year 1 separate timetabled lunchtimes for hall and shared outdoor area 3. Place a table at the far side of the hall for those children who need longer to eat their lunch 4. Staff to wear PPE when distributing 'grab bag' school lunches 5. Barriers to be used to ensure pupils are a safe distance from the one-way system pathway 6. Reduced playtime equipment – only equipment with hard surfaces that can be easily cleaned soft material equipment to be quarantined between use 7. Reception/Year 1 outdoor equipment to be cleaned after each outdoor session with different class bubbles and AM and PM Rec children. Use Milton to wipe down and outdoor tap/hose to clean equipment 8. Games discussed which encourage social distancing – football passing, hula hoops etc. 9. If children require first aid then member of staff must wear PPE 10. Emergency PPE grab bags to be taken outside for staff on duty Rec/Year 1 PPE bag to always be taken outside for timetabled outdoor provision 11. Children to be reminded of keeping a social distance from adults when outside in the playground 12. Inhalers to be taken outside by adult so children do not need to return to the classroom during the outdoor session

HIGH	MEDIUM	LOW	NEGLIGIBLE
<u>Control measures</u>		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Children staying in their classroom as much as possible 2. One child from each class going to toilet at one time within their time slot 3. Staggered playtimes and lunchtimes for each class 4. Groups to access the playground via the classroom fire doors, where possible 5. Classes to use the paths around the outside of the building to move between their classroom and playground 6. Messages to office via radios 7. Staff to use the colour codes to communicate via radio if assistance is required, and the nature of the assistance 8. Emergency code word to be used, if needed, via radio 9. Urgent confidential messages to Head Teacher can be sent via text message or email 10. Staff use empty rooms and alcoves to maximise the distance between each other 11. Agree instructions with children regarding going to, and returning from, the toilet 12. Reception/Year 1 - Daily routine to be discussed and re-visited with children regularly 13. If children are required to move through the corridors outside of their allocated toilet time slot then staff should supervise to ensure safe distances are maintained 14. Classroom staff to supervise in corridors, from a distance, if necessary 15. When moving around school children should maintain a social distance from their peers and staff at all times- this should be practiced regularly from the start of the term 16. Each class should practice their fire evacuation procedures by maintaining a social distance until they reach the assembly point 17. All whole-school activities will be suspended until further notice to reduce the requirement of moving around school 18. Staff and visitors moving around the school corridors will wear masks

<ol style="list-style-type: none"> 1. Inclusion in risk assessment process – input into hazard identification and control measures 2. All staff are aware of relevant policies, procedures and government guidance 3. All staff are made aware of any infection control procedures and social distancing arrangements before school reopens 4. Provide training if required by staff – infection control training, child wellbeing training 5. Additional training day to be available to staff at the start of the term 6. Regular reviews of staff well-being to be carried out by the Head teacher and/or Business Manager 7. Staff meetings – virtual and face to face with strict social distancing to discuss concerns and shared control measures 8. Sharing of support helplines 9. Confidential counselling available virtually for those who feel they need it 10. At least one SLT member of staff available on site every day for staff to share concerns with 11. Risk assessments reviewed regularly 12. Regular email updates and reminders to staff to keep them informed of any changes to procedures and protocols 13. Additional designated ‘staff areas’ for use during breaks and to make refreshments: staffroom and shared area 14. Rota for use of staff spaces throughout the day to enable social distancing 15. Provision of PPE for first aiders and in case of a child becoming ill on site and needs close contact with adult 16. PPE available to any member of staff if they feel they need it 17. Planned time for planning and preparation within the week 18. Individual risk assessments for staff to be reviewed and shared with the staff member in question 19. SLT to closely monitor local guidelines to ensure staff are supported and well informed (for example, in the event of a ‘local lockdown’) 20. Staff will be reassured that they will be informed as soon as possible if a colleague has confirmed coronavirus and there has been workplace exposure 21. Staff offered extra time out of class during heavy workload times 22. Wonder walls introduced in staff areas to promote positivity and thankfulness 23. Staff encouraged to take part in meetings virtually where practically possible 24. Teachers able to complete PPA at home to reduce usage of additional meeting rooms

<u>Control measures</u>		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Procedures are implemented and regularly reviewed on how to respond to a suspected case of coronavirus 2. The designated area to isolate an unwell pupil is the Business Manager’s office as this has both ventilation and access to the main visitor entrance for collection by parents/carers 3. An alternative workspace will be given to the business manager if the office is to be used to isolate an unwell pupil 4. SLT should be alerted to the incident immediately in a calm manner 5. Staff supervising the unwell pupil must wear sufficient PPE 6. The quarantine area and/or bathroom area must be thoroughly cleaned following an unwell pupil using the space 7. Family Support Worker will advise families on the requirement for a coronavirus test and ensure this is followed up and school are informed of the result
